TRANSFORM ANY SPACE

SmartArt is perfect as a beautiful decorative feature, either as a full panel or cut to size. It is ideal as a focal point in any setting, whether retail, commercial or even in your own home. The 3040mm x 1215mm x 8mm panel size allows for the panels to run from floor to ceiling for a seamless finish. SmartArt can also cover larger areas. The panels can easily be joined edge to edge or with a decorative strip, depending on the desired look.

TEXTURES

The texture of each SmartArt panel was carefully selected in order to bring another level of realism to the panels, whether being viewed up close or from afar. In particular, the moon and slate textures offer an extra visual impact.

EDGING & JOINING

The thickness of this panel is suitable for 8mm tile trim. A large selection, from satin blacks, chrome, and many plain colours can add an extra dimension to your finished design. If used in a kitchen or areas where moisture can accrue, particular care must be taken to ensure exposed edges are properly sealed. The product is not suitable for wet areas.
